

Ever wondered what the 'impact of gambling' is on our community?

Ever wondered where to 'get help' with an issue related to gambling?

The Gambling Impact Society (NSW) Inc. received funding from the NSW Government – Casino Community Benefit Fund to produce two great resources for those interested in finding out more about this social issue.

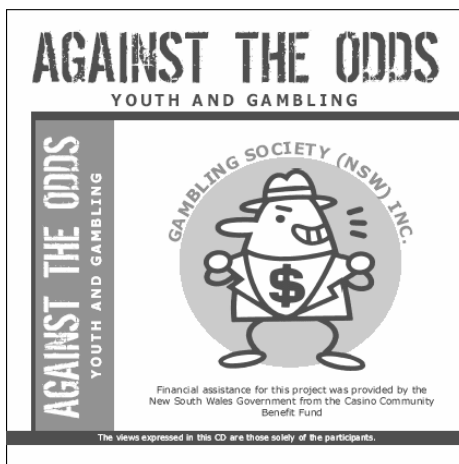

LESS THAN EVEN *The hidden costs of gambling* offers a rare insight into the impact of gambling in NSW through the eyes of people affected by gambling and those who provide support services.

This DVD has been produced as a useful resource for anyone interested

in issues for problem gamblers in our community.

The DVD could be used for training purposes, general information, awareness raising for support groups, individuals and families.

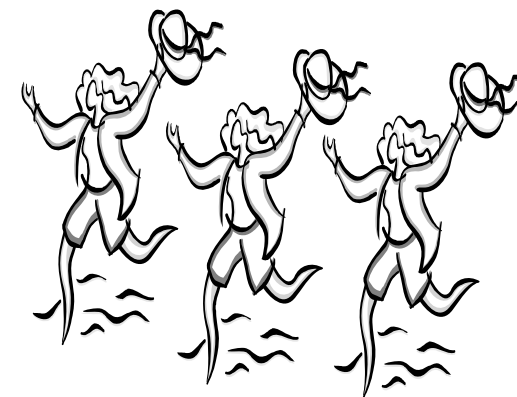

The **AGAINST THE ODDS Youth and gambling** CD has been developed with a focus on young people and gambling.

The CD highlights some of the current impacts of gambling in the community and on youth in particular.

Listeners are introduced to the impact of problem gambling through a variety of scenarios, questions, facts and expert opinion.

It is anticipated that this resource would be an effective tool to promote discussion amongst youth groups, students and those working with young people in the community.

The **Women and Gambling Information Kit** was developed as a resource kit for those working with women who gamble. The kit was funded by NSW Department for Women.

This resource was developed as an information kit which contains handouts and information which may be photocopied and provided to women as needed.

The kit provides an overview of women's experiences of gambling in Australia today. It aims to provide an overview of problem gambling and how the lives of women can also be negatively affected by another's problem gambling behaviour.

Basic self-help information is provided on how to identify a problem with gambling, understanding the cycle of problem gambling, some self-help and self-protection strategies and where to get further help.
